

Year 1 SCIENCE – All About Me

Subject Specific Vocabulary

Human body	The parts that make up a person
Senses	The five senses are hearing, sight, touch, taste and smell. We use these to explore what is happening around us.
Hearing	Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
Sight	Your eyes let you see things around you.
Touch	Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
Taste	Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
Smell	You smell using your nose. Your nose can tell if things smell nice or not.
Bitter	A strong sharp taste.
Sweet	A nice sugary taste
Sour	Unpleasant harsh taste.
